# How To Use Your Brochure

For ease of ordering follow these simple steps:

- **STEP 1**      *Select the sign you require and choose from the sizes shown.*
- **STEP 2**      *Note the alpha-numeric reference number.*
- **STEP 3**      *Select the type of material you require, and check the price.*

## Choose the right size sign

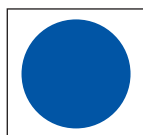

## Classification of Safety Signs

**Geometric shape-**

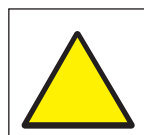

**Meaning-**

**Prohibition**  
Must not do

**Mandatory**  
Action, Must do

**Hazard**  
Danger, Warning,  
Caution.

**Safe Condition**  
Escape Route,  
Safety Equipment

**Fire Fighting**

**Supplementary**  
Information

## Cigarette Bin

*This cigarette bin is manufactured from Aluminium and powder coated for a long lasting outdoor life.*

*Comes complete with keys and fixings (for wall fixing)*

*Available for fitting direct to wall or with two rows of post fix channel for post mounting.*

*Clips are required for post mounting, please see page 127 for options.*

code	size(mm)	without channel	with channel
SS26B	240 x 380mm	£17.25	-
SS27B	240 x 380mm	-	£19.50

# What Is The Right Material?

## Self Adhesive Vinyl

*A flexible PVC, with a high tack adhesive backing. Suitable for interior use. For a good bond ensure the sign is fixed to a smooth, clean & non-porous surface.*

## Rigid PVC plastic

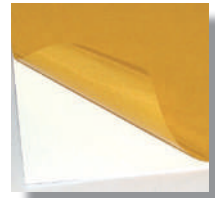

*Available in various*

*thicknesses, for interior & exterior use. Standard signs are 1mm thick.*

## Rigid PVC Plastic/Self Adhesive Backed

*All standard safety signs can be produced in 1mm rigid plastic with a self adhesive backing for easy fixing. Please allow 48 Hours for delivery when requesting this material.*

## Foam PVC

*Suitable for interior & exterior use and available in various thicknesses. Typically used for double-sided hanging, projecting and skiphook signs. Lightweight & durable, available in various colours.*

## Correx

*These fluted lightweight PVC signs are ideal value for temporary, budget site signage.*

## Gemglow® Photoluminescent

*Charged by ambient light these signs immediately illuminate in sudden darkness. An excellent material for Way-finding & Fire equipment signs. Reverse printed for a high quality, durable finish. Complete with a self adhesive backing.*

## Tuff®

*Sub-surface printed signs are virtually indestructible. They do not fade, are anti-corrosive and are highly resistant to deliberate vandalism. These signs can be used again and again*

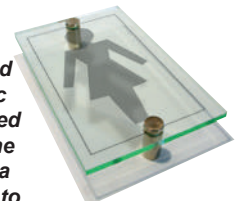

## Braille

*As well as the standard range of DDA signs shown we also offer a bespoke sign service. Allowing us to make signs to your requirements. Please contact the sales office for further details.*

## Acrylic

*Reverse applied / printed acrylic signs when used with our chrome locators gives a prestige finish to any surrounding.*

## Prestige

*For interior & exterior use, excellent longevity in normal environmental conditions. Can be used for a prestige look when finished in a Satin Anodised Silver or Brushed Gold effect. Complete with a self adhesive backing.*

## Aluminium Traffic

*Class ref 1 and ref 2, reflective 3mm aluminium signs are ideal for site management signs. Can be supplied with channel & clips for post fixing. Comply to BSEN 12899-1 2001.*

## Specialist Signage Materials

*We are able to manufacture signs on most types of available materials, whether it is a quantity of one or one thousand. We also offer multi-lingual signs. Please contact our sales office for further information.*

# British Standard Fire Exits

## The Safety Signs and Signals Regulations 1996

All fire exit signs on this page conform to the the above, which requires all Safety, Health, Emergency Escape and Fire Equipment signs to include a pictorial symbol. These fire exit signs comply to BS5499 Part 4 and 5, 2000. All employers must comply! It's the law!

Signs marked with the following symbol\* must be used in conjunction with the running man symbol.

All signs are available in 1mm rigid plastic, self adhesive vinyl or rigid plastic with self adhesive backing or complete with Bacto-Shield™.

FLO10 300 x 500 £29.00

FLO12 300 x 500 £49.51  
Photoluminescent Floor sign

Bring your message right onto the factory floor (literally). These floor signs give maximum impact to your safety policy. Placed directly onto the floor the aggressive adhesive and polycarbonate protective film will give ultimate durability. They should also remain visible under smokeout conditions occupying the gap between the floor and the smoke curtain. Use in conjunction with the surface preparation kit shown on page 110.

# Fire Equipment Signs

## Fire door keep shut

These fire door signs assist in conforming to The Building Regulations 1991 which advise that all doors designed to be fire resistant should display an appropriate mandatory fire safety sign.

All signs comply to BS5499 Part 1 & 5, and are all available in 1mm rigid plastic, self adhesive vinyl or rigid plastic with self adhesive backing.

Fire action signs displaying pictorial symbols comply to the BS5499 designs.

A comprehensive fire exit scheme can be undermined through the lack of an accurate fire procedure.

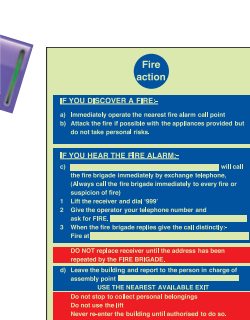

Fire Action Notices provide essential, detailed information and should form part of a comprehensive fire exit and evacuation process.

If your requirements cannot be met from our standard range please contact our sales office for prices on specialist notices.

# Fire Equipment Signs

## The Fire Precautions (Workplace) Regulations 1997

Non-automatic fire equipment should display safety signs in accordance with The Safety Signs and Signals Regulations 1996.

These regulations require the fire fighting equipment to be marked with a permanent sign board in red; Our fire signs conform to DIS3864 Part 1 which requires a white border on all fire signs, and all symbols conform to Pr EN 7010.

### STAC2

Fire Safety Log Book

£19.02

This Fire Precautions Log Book will assist employers with Fire & Safety compliance legislation including the Regulatory (Fire Safety) Reform Act.

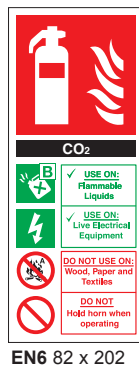

Contents cover the following:

- Frequency of test - summary
- Example records
- Fire warning systems
- Means of escape, fire signage & notices
- Fire safety training
- Emergency lighting template

size(mm)	self adhesive vinyl	1mm rigid plastic	size(mm)	self adhesive vinyl	1mm rigid plastic	size(mm)	self adhesive vinyl	1mm rigid plastic	size(mm)	self adhesive vinyl	1mm rigid plastic

# No Smoking

Smoking in enclosed places was banned in England on 1st July 2007.

This followed similar bans in Northern Ireland on 30th April and Wales on 2nd April 2007.

These pages contain all the signage you need to conform to this legislation.

Prohibition signs - Instruct, inform, advise staff and visitors in any action which is specifically prohibited

All prohibition signs comply with Pr EN 7010 and The Health & Safety (Signs & Signals) Regulations 1996.

For Design your Sign see pages 82 to 85.

All signs are available in 1mm rigid plastic, self adhesive vinyl or rigid plastic with self adhesive backing.

The Dangerous Substances and Explosive Atmospheres Regulations (DSEAR) 2002 came into force on the 30th June 2003. (example signs to right)

The DSEAR applies to all dangerous substances, in all businesses with risks from fire or explosions from these substances being used in potentially explosive atmospheres.

As dangerous substances can be found in most workplaces, it is essential that all employers and the self employed comply with this regulation.

Use the signs shown to the right to warn of all potentially explosive situations.

Businesses operating a CCTV system are affected by the Data Protection Act 1998. Under the Act individuals have the right to access personal information including CCTV images. To enable individuals to exercise their right under the Act, "appropriately sized signs should be placed in and around the area where CCTV cameras are located." In addition the signs should, "Identify the owner / operator of the system and the purpose for which the data may be used."

Available in Self Adhesive Vinyl, 1mm PVC and 3mm Perspex plate only or with fixing channel, for post mounting .

# Mandatory

**Mandatory signs** - Instruct, advise and inform staff and visitors of an action that must be carried out to secure a safer working environment.  
Meaning you must carry out the action given by these signs.

**Colour** - blue symbol and background, white text.  
**Symbol** - circle.

Our mandatory signs comply to Pr EN 7010 regulations.

For your own custom made safety signs see 'Design your Sign' pages 82 to 83.

All signs available in 1mm rigid plastic or self adhesive vinyl.

**Bacto-Shield anti-bacterial overlamine film.**

When coated over rigid signs typically results in over 99% reduction in bacterial amassing. Ideal for use in the Health and Food Processing industries, the overlamine can be applied to all rigid signs.

Please request when ordering, and add 30% to the cost of each sign.

## Floor Signs

Bring your message right onto the factory floor (literally). These floor signs give maximum impact to your safety policy. Placed directly onto the floor the aggressive adhesive and polycarbonate protective film will give ultimate durability. They should also remain visible under smokeout conditions occupying the gap between the floor and the smoke curtain. Use in conjunction with the surface preparation kit shown on page 110.

**ST4** (frame only) - 500mm high  
**Lightweight cleaning stand**  
Use this frame in conjunction with SW1 to SW9. All printed on both sides with the same message with the exception of SW1 (see design).

**ST1** (frame only) - 900mm high  
**Lightweight cleaning stand**  
Wire rod frame folds flat for easy storage. Legs are rubber tipped to protect floors and stop sliding. Can be supplied as stand only or choose from the signs above to create a complete unit.

**SW22**  
**Interchangeable floor stand.**  
Complete with magnetic frame attached.  
£18.50

Any of the cleaning stands shown are ideal for the marking of potential hazards.

SW10 to SW20 stands are 233 x 615mm and fold flat for easy storage.

Alternatively create your own swing sign using SW9 or SW11 where specific hazards or circces may arise.

*When deciding on signage for your site it is imperative to consider many things, type of material, length of project & budget etc. We offer several material types to cater for all site situations.*

### **Correx-**

*A lightweight fluted P.V.C. ideal for short term projects*

### **Self Adhesive Vinyl-**

*A cost effective solution. These signs can be mounted on clean, smooth surfaces.*

### **Rigid Plastic-**

*1mm thick standard sign suitable for most locations*

### **Foamex-**

*3, 5 & 10mm thick compressed foam board can be a cost effective method for all types of signage around your site*

### **Duralite-**

*A premium substrate sub surface printed giving excellent vandal resistance, can be used time and time again*

### **Overlamine-**

*All of our signs can be covered with a matt, gloss or anti graffiti laminate for protection*

*Using the latest production methods we are able to manufacture to your own bespoke requirements whether you require standard safety signs with your own company name and logo, or site specific signage, building wraps or hoardings. Our trained sales staff are available to assist you in ensuring you choose the right sign manufactured on the most suitable material for your project.*

Printed on 3mm foam board, these durable heat bent signs hook neatly over scaffold and railings, forewarning of hazards and helping to prevent accidents before they happen.

The hook-sign concept can be tailored to meet your individual requirements of size and design.

## Industrial Euro Bins

Great all round utility bin stands 650mm high and holds 95 litres. Manufactured from toughened polypropylene available in five colours as shown. Use the colours to differentiate between different zones, cells or departments. Alternatively, use for different kinds of waste. Each bin can be provided with a sign from our standard range, or we can apply the text or graphics of your choice.

## The Disability Discrimination Act Part III 2004

The DDA Part III amendments produced a strict guideline which came into effect on the 1st of October 2004 guaranteeing that equal access must be made to all people using public buildings, including educational establishments.

Signs should be placed at a height suitable for everyone to reach unaided, generally this is recommended to be no lower than 1400mm from the floor and no higher than 1700mm.

Directional signs should be placed at each entry point, as well as signs showing the toilet locations. Fire exit and exit signs should be visible from all locations.

Identification signs (such as door signs) should be located next to the door, in case that door has been left open.

All signs displayed white on blue are also available as black on white. For ease when ordering quote:

**TAC#:** For black on white  
**TAC#B:** For white on blue

As well as the standard range of DDA signs shown we also offer a bespoke braille sign service. Allowing us to make signs to your requirements. Please contact the sales office for further details.

size	braille	size	braille	size	braille
150 x 150	£29.15	148 x 210	£36.22	400 x 150	£56.47
150 x 225	£33.33	300 x 150	£36.78		

To relay information, direct, identify or inform, our range of general signs provides the answer. An ideal solution for situations which do not warrant specific safety signage. To project or suspend your general signs use our suspension frames on page 106.

These signs are available in our Prestige and Clearview prestige range.

*With wayfinding being both a necessary and aesthetic part of a buildings look and character, it is essential to choose a system which will not only stand the test of time, but effectively guides staff and visitors throughout your building.*

*To maximise this criteria, **signsystems™** have developed a family of sign types which meet the demands of a changing environment, whether a lobby directory, desk or door sign.*

*All the **signsystems™** products have interchangeable sign faces.*

*We are experts in project management. Our fully trained staff will be able to advise on design, location and installation of all your sign requirements, no matter how small or large a project.*

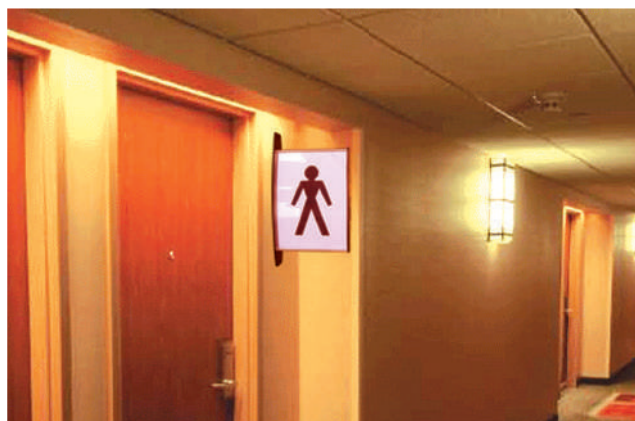

PRICES  
HELD

The Alphacurve system is a cost effective way of directing people around your building. Using interchangeable paper inserts, you can quickly and easily update information. This versatile system is available in choices of Door, Desk, Suspended, Floor Standing or Directory to cover all your requirements. This curved system comes complete with anti-glare covers.

## an introduction to gemglow signs

**GEMGLOW®**  
glow in the dark signage

*Simply the  
most competitive high lumen  
photoluminescent available*

*In emergency situations, safe evacuation of premises should be the first priority. Night-time, windowless or smoke filled areas can cause serious reduction in visibility, allowing panic and disorientation to quickly take over.*

*In smoke filled areas normal emergency safety lighting will become ineffective. GEMGLOW® photoluminescent, glow in the dark signs, provide a very cost effective solution.*

*Glowing in the dark for upto 7 hours, GEMGLOW® is a PSPA "Class A" rated Product.*

*Use GEMGLOW® to provide the marking of emergency escape routes, by using a continuous line of wall markers to identify the direction of the escape route, fire exits, doors, stairways and for the location of fire fighting and emergency equipment.*

*GEMGLOW® signs are a 2 in 1 product - combining the ease of self adhesive fixing with the strength and durability of rigid plastic. Reverse printed and sealed with factory applied self adhesive.*

*Use GEMGLOW® signs in conjunction with wayfinding systems.*

*All GEMGLOW® products comply to IEC 60695-2-1/2:1994 ensuring GEMGLOW® is produced on non-flaming substrate.*

*For any further information or advice contact our sales team .*

# PATHFLAG<sup>®</sup>

## **PATHFLAG**

This unique interchangeable carrier system has been designed to overcome a major problem in directional escape routes and general signing on industrial floor gratings and walkways

### **The Problem.**

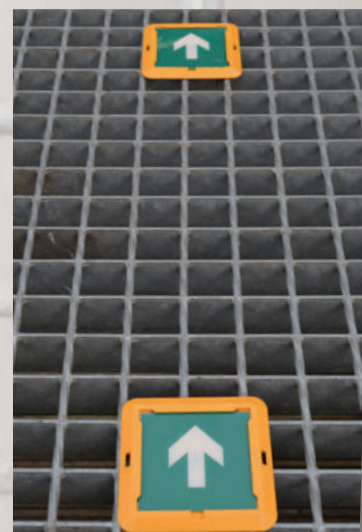

Metal and GRP floor gratings are the most commonly used materials in industrial flooring, yet no signage has been developed to work in conjunction with it. On many industrial, chemical, power generation and process sites there is often limited space to highlight escape routes and to locate or sign essential safety information.

### **The Solution.**

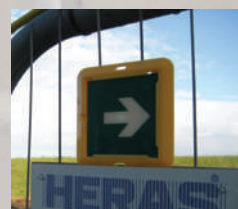

With a class 1 fire rating and manufactured from tough, shock resistant, hard wearing ABS plastic the unique patented **PATHFLAG** signage carrier system is the most cost effective solution to this problem.

**PATHFLAG** is unrivalled in its design and construction. It has been specifically created to fit onto grated flooring secured with a toggle fixing. These signs placed at regular intervals on walkways offer reassurance and orientation points during shutdowns or outages. Within new build projects they can lead personnel to safety when your complete escape safety system may not be in place.

### **Flexibility.**

The **PATHFLAG** holder is designed to hold a rigid sign insert. These are supplied in Class B Photoluminescent material for maximum conspicuity. The internal design of the sign unit allows the holder to be cable tied to fencing or hand rails. It is pre-formed with 5mm Ø holes, which means the unit can be screwed into timber and it also comes with a magnetic fixing to the rear. The outer can be moulded in a variety of colours (minimum quantity 1000). We can also produce specialist inserts to your design outside of our standard range.

## Step 1

Purchase Base unit

## Design Your Safety Sign Following 4 Easy Steps

### Step 1

**Choose Your Type & Size Of Sign:**

eg-  
Hazard sign  
200 x 300  
WA300

WA300

### Step 2

**Choose Your Symbol:**

eg-  
Beware toxic material symbol  
CSW5

WA300 + CSW5

### Step 3

**Choose Your Text:**

eg-  
Danger  
Risk of toxic gases

WA300 + CSW5 + TEXT

### Step 4

**Choose Your Material:**

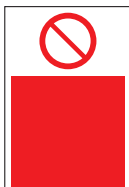

eg-  
Rigid plastic (R)

WA300 + CSW5 + TEXT + RIGID

## Dry Wipe Boards

Produced using the latest technology and applied directly to magnetic or non-magnetic dry-wipe boards.

Any diagram can be included. Choose normal dry wipe or magnetic dry wipe.

Now more than ever safety awareness is crucial. Use your dry wipe boards, to control, record, advise, staff and visitors of your safety record. Examples of our work are shown below.

**Remember visual impact is three times more effective than verbal communication!**

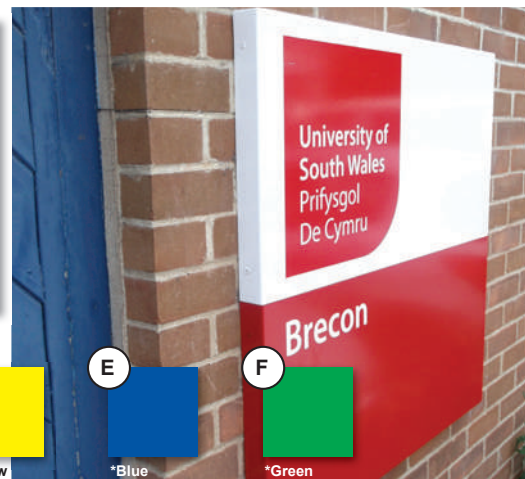

## Aluminium Tray Signs

These aluminium trays can be purchased in mill finish or powdercoated, in 6 standard colours. Other colours are available on request.

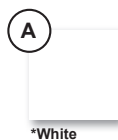

Choose the text of your choice, including any logo's if required, these can then be applied using the latest technology.

We can also offer trays of different sizes to suit your specific requirements. Trays can also be supplied in more than one piece, particularly suitable for very large signs, please contact our sales office to discuss your requirements further.

\*Please note colours shown are for illustration purposes only and may differ from those shown.

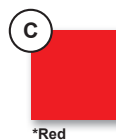

Please quote the stock code and colour code  
e.g. ALT09F  
(2390 x 1120 Aluminium tray sign in green)  
when ordering.

## Solarsign

The Solarsign display case is the latest addition to our solar illuminated showcase range designed for external use and available in wall mounted, post mounted and monolith options, with magnetic or felt backing board. Ideal for urban or remote areas alike these solar cases are maintenance free using natural light to store power during the day then at dusk the case is illuminated by movement, giving 24 hour visibility.

### Intelligent On-Demand Lighting

Solarsign employs an intelligent energy management system to maximise its on-demand illumination, LED illumination is triggered when low levels of ambient light are combined with movement detection.

A person can be detected within a 3 metre arc as shown on the left (other distances are possible depending on application and location). The illumination remains on for 3 minutes after the last movement has been detected within the arc. Without the need for direct sunlight, energy is stored throughout the day to provide the power for illumination during dusk and at night.

Dual power units (solar and mains power) are also available where constant illumination is required.

- Superior weather and vandal resistance
- Corrosion resistant aluminium frame
- Integrated Solar panel and LED illumination
- Manufactured exclusively in the UK with a peace of mind 3 year guarantee (conditions apply)

## Day Time Solar Charging

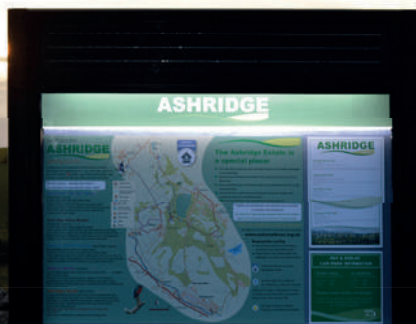

### DAY

### A Revolution For Remote & Highly Urban Locations

Solarsign is the ultimate solution for any location where routing mains power is complicated costly or undesirable. Without the need to install mains power you are free to position your display exactly where you need it most - in the place of maximum exposure and without the cost and disruption involved with mains powered units. This is hugely advantageous in many settings including large or multi-site locations where numerous displays are required. Other applications include: at the end of long driveways, cycle routes, remote car parks, train station platforms, busy high streets, pedestrianised areas, listed buildings and sites of historical importance.

### DUSK

## Night Time LED Illumination

### NIGHT

### Cost & Maintenance Free Illumination

Powered by daylight (not sunlight), the integrated solar panels soak up UV energy during normal daylight conditions before delivering it to an internal battery unit for storage. Once dusk arrives the internal LED's are triggered at the very instant a person is detected, flooding the display area with light. The result is 24 hour visibility for your information. Operating from a safe and low voltage power supply, the highly efficient LED's provide ample illumination for your entire display area, for over 50,000 hours. The result of this is zero running costs and virtually maintenance free illumination solution for a wide range of locations.

The Solarsign notice board range offers wall and post mounted versions in a single, double or triple door format.

### Generic Features & Options:

- > Smooth continuous hinges
- > Highly durable and vandal resistant
- > Superior weather resistance
- > Pin board insert or magnetic panel
- > Choice of top or edge lit illumination
- > Header & branding options

## Header Panel Options

Display your brand boldly by combining your own custom graphics with one of our 3 laser profiled external headers and/or a premium back-lit internal header, which is fitted to the inside of the glazing.

## Display Stands

The display stands shown are ideal for the display of promotional information that needs to be changed regularly. All of the shown would be ideal for wide range of areas, such as, hotel foyers, reception areas, exhibitions, conference facilities, sports and leisure centres, museums and galleries.

### ADD5 £187.95

Chrome plated with a very stable base. The frames are available to incorporate either A4 or A3, at a height of 1100mm (excluding frame)

### ADD6 £193.00

The prestigious floor stand shown is chrome plated and comes complete with a weighted rectangular base for added stability. Frame will take upto A1 in size the stand height to the base of the frame is 930mm.

### Fristem Indoor POA

Fristem indoor is a high quality, flexible display system that is easy to assemble.

The unique holding ring enables panels to be arranged at a variety of angles creating many different display board configurations. It carries banners and pin boards, as well as aluminium and magnetic panels.

As the rings can be positioned anywhere on the pole, the size and height of the board is completely adjustable. For more details contact our sales team.

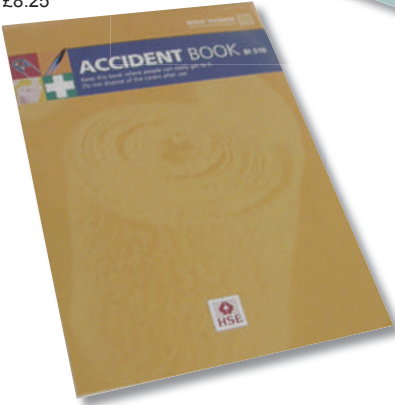

**All businesses must possess an accident book which complies to the Data Protection act 1998.**

The accident book allows for accidents to be recorded whilst also being produced on a tear off slip so details can be stored in a secure location. Contains 50 sheets per book. Choose either the A4 or A5 version.

# WHAT YOU SHOULD KNOW

## HAZARDOUS SUBSTANCES PACKAGING & LABELLING

Under the chemical regulations, any dangerous chemicals supplied in a package must be **labelled** and packaged in a manner suitable to withstand the conditions of supply and transportation. The act is designed to safeguard both people and the environment from hazardous effects of chemicals.

Ensure you know the following:-

### THE SYMBOL

### THE HAZARD CLASSIFICATION

#### HAZARDOUS

May cause irritant health risk if inhaled, swallowed or if penetration of the skin occurs.

#### IRRITANT

May cause inflammation and irritation when in immediate or repeated / prolonged contact with the skin or if inhaled.

#### TOXIC / VERY TOXIC

May cause severe health risk or even death if ingested, inhaled or penetration of the skin occurs.

#### CORROSIVE

May cause burns or destruction of living tissue on contact with skin.

#### OXIDISING

May cause explosion on fire. Reacts with other substances.

#### EXTREMELY FLAMMABLE

Use only in flameproof areas.  
Boiling point < 35°  
< 28°  
Extremely flammable and dangerous

#### EXPLOSIVE

When dry or under the effect of heat or frost may explode.

#### HIGHLY FLAMMABLE

Use only in flameproof areas.  
Inflammable, Flash point below 23°.

### THE SAFETY PRECAUTIONS

1. Do not breathe dust or spray or vapour.  
2. Avoid contact with skin or eyes or in or on the body.  
3. Do not breathe dust or spray or vapour.  
4. Do not breathe dust or spray or vapour.  
5. Do not breathe dust or spray or vapour.  
6. Do not breathe dust or spray or vapour.

1. Do not breathe dust or spray or vapour.  
2. Avoid contact with skin or eyes or in or on the body.  
3. Do not breathe dust or spray or vapour.  
4. Do not breathe dust or spray or vapour.  
5. Do not breathe dust or spray or vapour.  
6. Do not breathe dust or spray or vapour.

1. Wear suitable protection, clothing, eye face and gloves.  
2. Do not breathe dust or spray or vapour.  
3. Do not breathe dust or spray or vapour.  
4. Do not breathe dust or spray or vapour.  
5. Do not breathe dust or spray or vapour.

# WHAT YOU SHOULD KNOW

## PERSONAL PROTECTIVE EQUIPMENT

IN SITUATIONS WHERE RISKS CANNOT BE CONTROLLED BY OTHER MEANS SUCH AS SYSTEMS OF WORK OR ENGINEERING CONTROLS, EMPLOYERS ARE REQUIRED TO PROTECT THEIR EMPLOYEES FROM RISKS TO HEALTH AND SAFETY BY PROVIDING SUITABLE PERSONAL PROTECTIVE EQUIPMENT (PPE).

### THE EMPLOYER MUST:-

- Provide suitable PPE free of charge.
- Maintain PPE in good working order and condition.
- Provide relevant training in the use of PPE.
- Consult employees on suitability of PPE.

### PPE PROVIDED MUST:-

- Be relevant for the work undertaken.
- Protect effectively against the particular risks involved.
- Comply with community directives.
- Fit properly and comfortably (adjusting in size where necessary).
- Not hinder the performance of any task.
- Not add to the risks involved.

### THE EMPLOYEE MUST:-

- Use the PPE provided.
- Report any loss, defects or damage to PPE.
- Take care to correctly store PPE when not in use.

# WHAT YOU SHOULD KNOW

## SAFETY SIGNS AND THEIR MEANINGS

RECENT REGULATION CHANGES PLACE A RESPONSIBILITY ON EMPLOYERS TO PROVIDE AND MAINTAIN SUFFICIENT SAFETY SIGNS TO WARN OF POTENTIAL HAZARDS IN ORDER TO KEEP THE SAFETY FIRST AND TO AVOID OF PRECAUTIONS THAT NEED TO BE TAKEN

### PROHIBITION SIGNS (DO NOT DO)

- A sign prohibiting behavior **likely** to increase or cause danger
- Colour = **red**, no Smoking

### MANDATORY SIGNS (MUST DO)

- A sign prescribing specific behavior
- Colours must be **white, blue**

### SAFETY CONDITION SIGNS (THE SAFE WAY)

- A sign indicating emergency exits or first aid / rescue equipment.
- Colour = **green**.

### HAZARD SIGNS (CAUTION, BEWARE)

- A sign giving warning of a hazard or danger
- eg. danger Electricity.
- Colour = **yellow**.

### FIRE SIGNS (FIRE EQUIPMENT)

- A sign indicating the location of fire fighting equipment.
- Colour = **red**.

### INFORMATION SIGNS (GENERAL INFORMATION)

Above providing general information not by the above categories eg, Toilets.

### WSK3

# WHAT YOU SHOULD KNOW

## MANUAL HANDLING REGULATIONS

IN SITUATIONS WHERE RISKS CANNOT BE CONTROLLED BY OTHER MEANS SUCH AS DESIGN OR WORK CIRCUMSTANCES, EMPLOYERS ARE REQUIRED TO PROTECT THEIR EMPLOYEES FROM RISKS TO HEALTH AND SAFETY BY PRODUCING STANDARD, PROTECTIVE EQUIPMENT TYPES

### ASSESS THE SITUATION...

- Can manual handling be avoided?
- If so use mechanical aid to lift or move the load.
- If not plan your lift.

### CHECK FOR THE FOLLOWING...

- Potential hazards, ie, packing hooks, sharp edges, etc.
- Check stability of parcel, ease of grip, weight of parcel.
- Know your route, avoiding slip or trip hazards.
- Know your destination Before lifting.
- Can you stop and rest if needed.
- Are you wearing protective equipment ie, gloves, safety boots, hard hat.

### YOUR SAFE GUIDE TO LIFTING...

1. Plan all aspects of the lift before using weight

2. Squat the feet and shoulders (lie in the foot, bend the knees and lift with the weight)

3. Grip the load firmly, wrap arms (keep the feet in the foot, bend the knees and lift with the weight)

4. Hold the load close to the body (keep the feet in the foot, bend the knees and lift with the weight)

Diagram illustrating the correct posture for lifting. The person is shown in a squatting position, lifting a box from the floor. The diagram is labeled with numbers 1 through 4 corresponding to the steps in the text.

Manual Handling Regulations

# WHAT YOU SHOULD KNOW

## THE CONTROL OF SUBSTANCES HAZARDOUS TO HEALTH

Under the COSHH regulations, all persons should know the relevant safety precautions to take, if exposed to substances hazardous to health. It is your duty to know the following:-

	DANGER	TOXIC	CORROSIVE	TOXIC / VERY TOXIC	HARMFUL
					
	<b>HIGHLY IRRITANT</b> May cause severe irritation and extensive damage to the respiratory tract with acute, if inhaled.	<b>TOXIC</b> May cause severe health effects if swallowed or in contact with skin.	<b>CORROSIVE</b> May cause severe health effects if swallowed or in contact with skin.	<b>TOXIC / VERY TOXIC</b> May cause severe health effects if swallowed or in contact with skin or penetration of the skin occurs.	<b>HARMFUL</b> May cause minor health effects if swallowed or in contact with skin.
	<ul style="list-style-type: none"> <li>1. Use the personal protective equipment (PPE) specified on the label.</li> <li>2. Do not breathe vapour or dust.</li> <li>3. Do not get on to your clothes or skin.</li> <li>4. Do not swallow whole or spit out.</li> <li>5. Do not breathe dust or vapour.</li> </ul>	<ul style="list-style-type: none"> <li>1. Wear suitable protective clothing, eye and hand protection.</li> <li>2. Do not breathe dust or vapour.</li> <li>3. Do not get on to your clothes or skin.</li> <li>4. Do not swallow whole or spit out.</li> <li>5. Do not breathe dust or vapour.</li> </ul>	<ul style="list-style-type: none"> <li>1. Wear suitable protective clothing, eye and hand protection.</li> <li>2. Do not breathe dust or vapour.</li> <li>3. Do not get on to your clothes or skin.</li> <li>4. Do not swallow whole or spit out.</li> <li>5. Do not breathe dust or vapour.</li> </ul>	<ul style="list-style-type: none"> <li>1. **ONE POINT SAFETY LESSON**  
DISPLAY SCREENS HANDY TIPS FOR STAYING HEALTHY

- SCREENS**  
Take a break from your screen (short, frequent breaks are better than longer, infrequent ones). Position the screen so that the top is in line with your eyes.
- MOUSE**  
Don't grip the mouse too hard. Use the elbow as well as the wrist to move the mouse around.
- CHAIR**  
Change your position on a regular basis. Ensure that the small of the back is supported by the chair and that you are sitting upright.
- KEYBOARD**  
Keep a space on the desk in front of your keyboard to allow you to rest your wrists occasionally. Forearms should be roughly horizontal.

These encapsulated posters give simple messages, graphically illustrated for maximum impact. Choose from the stock range shown or simply create your own 'One point safety lesson' poster and we will turn your ideas into the finished product. All the posters can be personalised with your logo.

All the posters shown on this page are 600 x 400mm.

**ONE POINT SAFETY LESSON**  
SAFE WORKING WITH PORTABLE LADDERS - BEFORE USE

- Five rungs over hanging if possible
- Lashed at the top footed if not
- Fit for purpose wooden ladders not painted
- Trained persons only 1:4 angle
- Sound construction
- Warning sign and cordon off
- Check floor conditions

**RETURN LADDER TO STORE IMMEDIATELY AFTER USE**

**YOUR LOGO HERE**

OPS1

**ONE POINT SAFETY LESSON**  
SAFE WORKING WITH SCAFFOLD TOWERS BEFORE USE

- Follow the manufacturers instructions for erection, use and dismantling. Have a copy of the instruction manual available. If you hire the scaffold, the hirer ought to provide you with this information.
- The tower must be vertical and the legs should rest properly on firm, level ground.
- Lock any wheels and out riggers. Base plates provide greater stability if you do not have to move the tower.
- Provide a safe way to get to and from the work platform, e.g. internal ladders. Climbing up the outside of the tower may pull it over.
- Provide edge protection, (guard rails and toe boards) at platforms from which a person could fall more than 2m. This applies to the intermediate platforms as well as the working platforms.

**YOUR LOGO HERE**

OPS3

**ONE POINT SAFETY LESSON**  
CORRECT FITTING OF EAR PLUG

- Hold plug between thumb and finger and begin a firm progressive compression using a back and forth ROLLING MOTION
- When a small CREASE FREE cylinder is formed...
- Insert compressed portion of plug into the ear canal and hold until expands. For easier fitting, gently pull ear outward and backward.
- When PROPERLY INSERTED, outer flange is located at outer opening of canal, improper insertion will reduce effectiveness

**Roll...**

**Insert**

**Proper Fit**

**YOUR LOGO HERE**

OPS2

**ONE POINT SAFETY LESSON**  
PROTECT YOUR BEST TOOL - YOUR HANDS

- Use the correct barrier creams, cleansers and after care creams to protect and condition your skin
- Wear suitable gloves for the job
- Don't wash your hands with solvents or spirits
- Any sharp edge, pallet or container can injure hands - not just tinplate
- Your hands are your most valuable tool treat them like it

This range of posters apply the safety message in a unique and innovative way.

We believe this range is the most complete, informative and eye catching available, easily understood but most importantly acted on.

These posters are encapsulated in tough wipe clean plastic for a longer life. All Making Sense of safety posters are 600 x 800mm.

These posters are divided into four sections.

- The first section discusses how amazing and irreplaceable each of our senses are.
- The second looks at the various workplace risks associated with that sense.
- The third looks at how best to protect yourself from risk of accidents.
- The fourth covers the first aid procedures should the worst happen.

## The Control of Asbestos at Work Regulations 2002.

In May 2004, Regulations 4 of 'The Control of Asbestos at Work Regulations 2002' came into force. This puts the liability on owners, tenants and managing agents of non-domestic premises to have in place an asbestos register that identifies where all asbestos contained materials (ACMs) are situated and how they are managed.

Shown on this page is a selection of products to help comply with this regulation.

This poster gives a brief guide to the rules affecting all owners and tenants of non-domestic premises.

**Asbestos Awareness Poster**

(250 labels on a roll)

### ASBESTOS AWARENESS UPDATE A BRIEF GUIDE TO THE NEW RULES

## 'The Control of Asbestos at Work Regulations 2002'

The Health and Safety Executive (HSE) estimate around 3000 people a year die from related diseases, expecting to rise to 10,000 by 2010!

In May 2004, Regulations 4 of 'The Control of Asbestos at Work Regulations 2002' come into force putting the liability on owners, tenants and managing agents of non domestic premises to have in place an asbestos register that identifies where all asbestos contained materials (ACMs) are situated and how they are managed.

Over 6,000,000 metric tonnes have been imported into the UK and the majority still unidentified

#### WHAT IS ASBESTOS?

Asbestos is a name given to the following type of minerals: Amosite, Chrysotile, Crocidolite, Fibrous Actinolite, Fibrous Anthophyllite and Fibrous Tremolite.

#### WHO IS AT RISK?

- Heating & Ventilation Engineers • Roofing Contractors • Fire & Burglar Alarm Installers • General Maintenance Staff • Gas Fitters • Demolition Painters & Decorators • Electricians • Plasterers • Carpenters & Joiners • Cable Layers • Plumbers • and many more...

#### DUTIES OF BUILDING OWNERS, TENANTS AND MANAGERS

- Assess whether the premises contain any materials incorporating asbestos.
- Assess the Risk arising from these materials
- Then take appropriate action to manage and control of risk

#### ASSESSING PREMISES

Steps must be taken to locate premises containing asbestos. Three easy steps can be taken to fulfill your responsibilities, these include:

- An assessment of the premises
- Check drawings, building manuals and consulting with occupants.
- Once the location has been established, the condition of the material must be assessed and findings recorded such that they are accessible and undamaged for the life of the building. We suggest you use an Asbestos Logbook (see your supplier)

*This can be fulfilled in-house or outsourced to specialists*

#### PRECAUTIONS - FOR SAFETY'S SAKE!!

- Prevent any exposure at all times where reasonably practical
- Do not remove asbestos without professional help, asbestos is only dangerous when disturbed
- The use of PPE is essential e.g. dust masks
- Do not eat or drink in asbestos locations
- Ensure people who come in contact of the asbestos locations are clearly aware of all safety procedures and measures to take in case of an emergency.

**THE H.S.E. ESTIMATE**  
The H.S.E. estimate an approximate 500,000 non-domestic buildings contain asbestos.

## ASBESTOS REGISTER

If you own, manage, occupy or control non-domestic property you now have a legal duty to manage the risks, or to co-operate with whoever manages the risks, from any asbestos that maybe contained within a building or equipment enclosed in that premises.

## Frames For Fire Exits

**Aluminium Frames**  
**SUSP5** 400 x 150 £36.25  
**SUSP6** 600 x 200 £39.71  
**SUSP7** 200 x 300 £35.00  
 Use with double sided signs

**Plastic Frames**  
**SUSP2** 600 x 200 £38.99  
**SUSP4** 400 x 150 £35.19  
 (frame only)  
 Shown with sign for illustrative purposes. For use with double sided signs.

**Step 1**  
 Choose the size of frame to suit the signs you require (frames shown to left)

**Step 2**  
 Place your signs back to back and insert into the top of the SUSP frame

**Step 3**  
 Select your required method of hanging from the fixings shown on page 93.

**PRICES HELD ON FRAMES**

## Bonding & Fixings

**MAST1**  
 Quick and simple to use, sign fix mastic will bond most dry, clean, grease and dust free surfaces without the need for mechanical fixings.

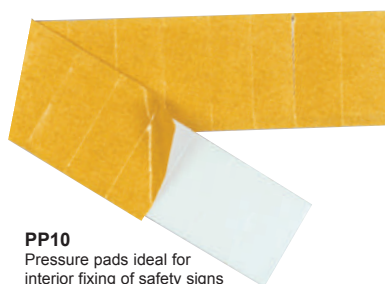

**GUN 1**  
 Use with MAST1

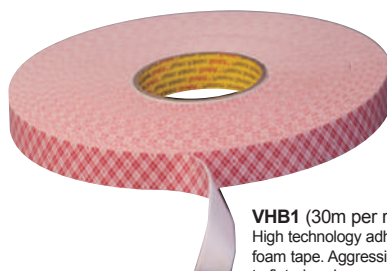

**PRIM1**  
 (1 ltr)  
 Ideal for preparing most flat surfaces ensuring maximum adhesion. As supplied with PRIM2

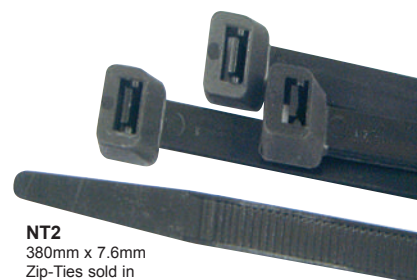

**PRIM2**  
 (preparation kit)  
 Ideal for preparing most flat surfaces ensuring maximum adhesion.

**PP10**  
 Pressure pads ideal for interior fixing of safety signs to clean, dry surfaces. Supplied in strips of 10.

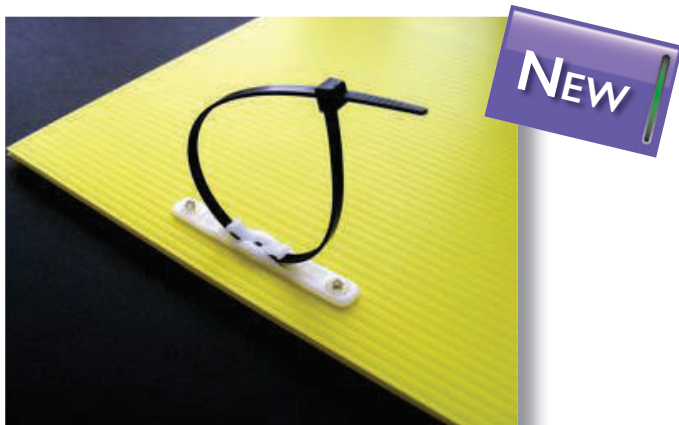

**VHB1** (30m per roll)  
 High technology adhesive foam tape. Aggressive grip to flat, dry, clean areas.

**NT2**  
 380mm x 7.6mm  
 Zip-Ties sold in packs of 10.

## SignClip

**SC10**  
 The above clip is ideal as a fixing method for temporary correx signs (Tye wrap not included).

## Cleaners & De-Greasers

**AG1**  
 Graffiti remover  
 This highly versatile Thixotropic gel clings to any surface and can be used to rid surfaces of felt tip, ball point ink & most paints and crayons.

**AG2**  
 Label remover  
 This formulation is used for quick and efficient removal of self adhesive labels, stickers, etc, from a variety of surfaces, leaving no adhesive residue.

**AG3**  
 Degreaser  
 The powerful degreasing solvents in censolve ensure the quick and easy removal of grease, oil and contaminants. Non conductive, evaporates quickly leaving no residue.

## Ceiling, Window & Wall Fixings

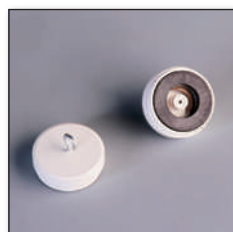

**SKY 3A**  
(packs of 10)  
Adhesive backed ceiling hooks for bonding  
to clean, grease and dust free ceiling areas.

**SPRING1**  
(in pairs)  
Versatile spring clips which  
accommodate drops from 300mm to 1m

**SKY1** (4" in pairs)  
**SKY2** (8" in pairs)  
Use to hang the suspended frames  
shown above.

**CEI 1A**  
(in pairs)  
Strong field ceiling magnets will  
attach to false ceiling support frames.

**SLIDE1**  
(packs of 10)  
Plastic slides clip onto false ceiling  
support frames.

**WS1**  
(packs of 10)  
Clear suckers for fixing posters to any  
smooth surface such as tiles or glass.

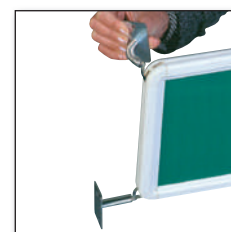

**LOC10**  
(Pack of 4)  
25mm Chrome locators

**LOC12**  
(pack of 4)  
Budget locators

**SUS10**  
Suspension Kit complete  
with 2m cable. Accepts up to 7mm  
material thickness

**PROJ3**  
For projecting our suspension frames.  
Stiff spring action allows for unwanted  
interference (Supplied in pairs)

**SEC22** (Pack of 4)  
**SEC23** (Pack of 100)  
Anti tamper screws

**SEC26**  
Security screw drill bit

## GHS Regulations

The new European Regulation on Classification, Labelling and Packaging came into force in 2009. Relabelling is to take place in 2 stages. Pure chemicals from the 1st December 2010, Mixed chemicals from the 1st June 2015. The range of self adhesive labels shown below comply to these new regulations.

## Post Protectors

These heavy-duty, highly visible protectors are an ideal way to safeguard against accidental damage.

Supplied pre-drilled in pairs, complete with fixing bolts. Can be used internally or externally.

800 x 100mm  
WL14 £42.55

## Parking Block

This moulded rubber parking block controls the position of parked vehicles.

It can be used individually, or aligned in longer runs.

Each block is half yellow and half black, and is 500 x 160mm. Fixing bolts included.

PK100 £31.42

## Kerb Ramp

This tough rubber-moulded kerb ramp has a rise height of 100mm. (suits most kerbs).

Capable of all weights of vehicle.  
490 x 305mm

KR100 £53.20 (pack of two)

## Cable Protectors

This instant cable protection is ideal for construction sites and outdoor events.

The hinged lid allows for cables to be inserted once the ramp is in position.

The robust design withstands HGV traffic.

Can be laid as a permanent or temporary solution.

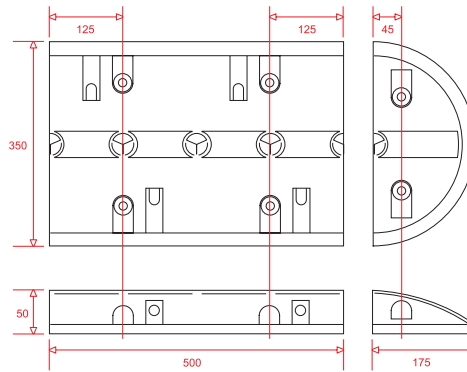

Fixing bolts are provided.

With three channels (each 55mm x 65mm) a variety of cables can be accommodated.

RCP3 1000 x 600mm sections £154.42

## Rubber Speed Ramps

A tough and economic ramp system manufactured from recycled thermoplastic. 50mm high by 500mm wide sold in pairs (one black, one yellow) each pair forms 1 metre in length. Each pair comes complete with sufficient fixings.

- Tough and durable
- 10 mph control rating
- CATS EYES fitted as standard
- Any length of ramp can be formed
- Quickly installed and re-locatable
- Fixing bolts included with all ramp sections (specify type of round)
- Two end sections can also make a circular speed bump

Two end sections make a circular bump!

**ECORAMP4 £111.53**  
Each section 500mm long.  
Sold in pairs  
1 Yellow and 1 Black

**ECORAMP3 £101.76**  
Each section 175mm long.  
Sold in pairs  
1 Yellow and 1 Black

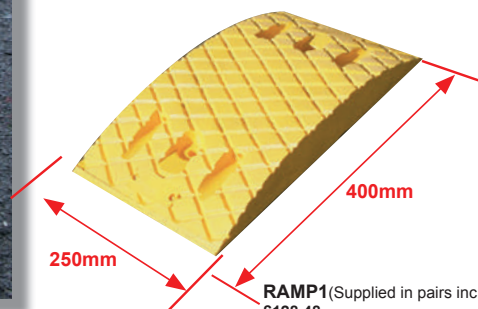

## Premier Speed Ramps

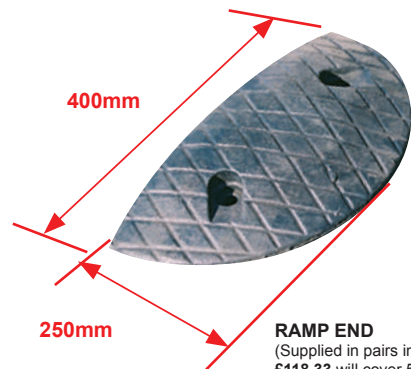

**VER1 (sold in pairs) £63.36**  
Highly reflective verge posts, ideal for restricting access, marking obstructions and direction of traffic. 1100mm high comes complete with a 360mm ground spike.

*This versatile modular system enables ramps of any length to be formed. Supplied in pairs, one black, one yellow complete with fixings. Each single module is 400mm x 250mm. Ensures speed around sites is controlled and safe. Round endcaps are recommended for a neat finish (supplied in pairs - black). Avoid the expense of on-site accidents.*

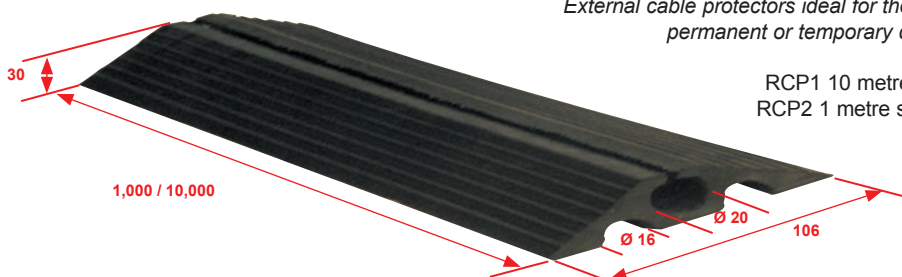

**RAMP1** (Supplied in pairs inc. fixings)  
£128.48  
will cover 500mm.

**RAMP END**  
(Supplied in pairs inc. fixings)  
£118.33 will cover 500mm.

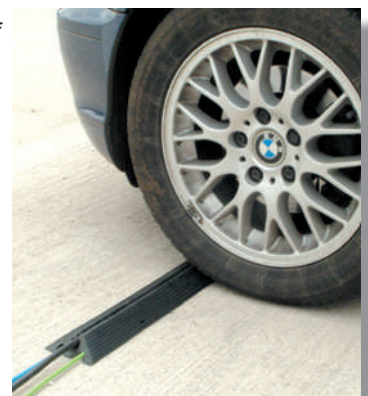

## Rubber Cable Protectors

*External cable protectors ideal for the protection of permanent or temporary cables on site.*

UN12 2000 x 2000	£337.60

## Accessories

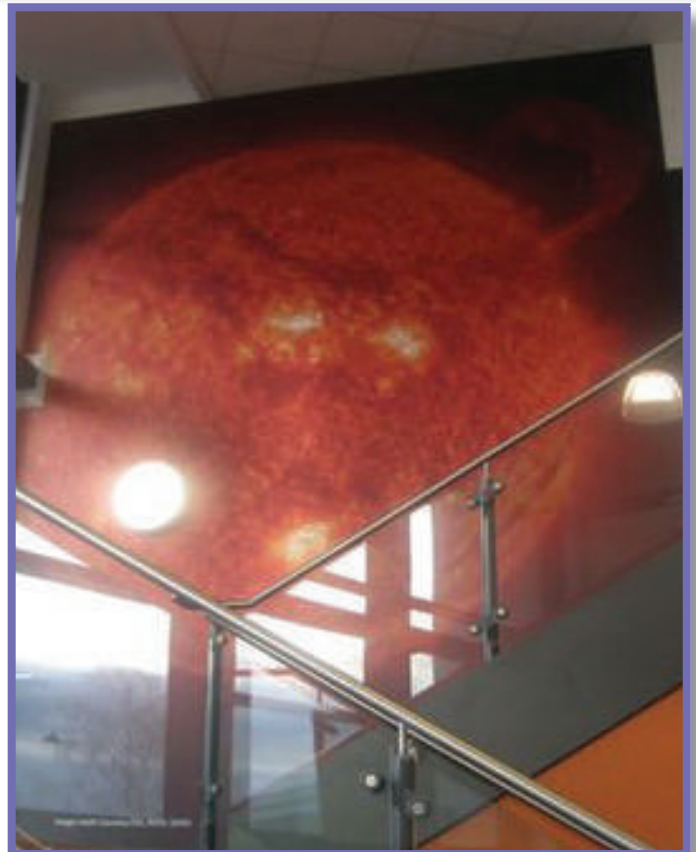

Table	Literature Stand
UNT1 2000 x 800 £152.29	UNL1 2000 x 800 £250.27

## Digital Wallpaper

*With our new generation of large format digital printers it has never been easier or more cost effective to brighten up even the dulllest of environments with a wall of eye catching, high-quality digital graphics.*

*We can also take your ideas and turn them into tension wall banners or backdrops, window vinyls, specialist dry-wipe boards and visual display, room dividers or simple pull-up banners.*

These High Definition slimline digital display units are available both wall mounted or free standing. Simple to use plug and play units or Wi-Fi options. Screen sizes from 19" to 55" all wall mounted displays come complete with all brackets and fixings

24/7 Usage

Plug and Play Media Player

LED Backlight Technology

Free Scheduling Software

High Definition Display

Eco-Friendly Power Timer

Integrated Speakers

Scrolling Text Message

Multiple AV Inputs

**Easy USB Update** - Simply load your media onto a USB stick, then plug and play. They require no additional hardware such as PCs, DVD players, excess cables or software.

**Tablet-Like Styling** - Buttonless tempered glass frontage, rounded corners, super slim profile and aluminium frame all add to their attention-grabbing aesthetics.

**Scrolling Text Message** - Compliment your content and get your message across.

**Constant Use** - Commercial grade panel and components provide a wide viewing angle, improved colour, contrast and brightness as well as the ability to be used 24 hours a day.

**Free Scheduling Software** - Included is simple and intuitive piece of software which allows you to schedule different media and scrolling text to play at different times of the day.

**Free Landscape/Portrait Wall-Mount** - Included with the wall-mounted models is a free super slim wall mounting plate that allows you to mount your screen in either landscape or portrait orientation.

**Use as a Monitor** - HDMI and VGA inputs allow you to connect external devices such as a PC or external media player (these can be hidden internally in the freestanding displays).

**Upgrade to Network** - You can also upgrade your screen to be networked, allowing you to remotely update your screen via LAN, Wi-Fi or 3G without any additional hardware.

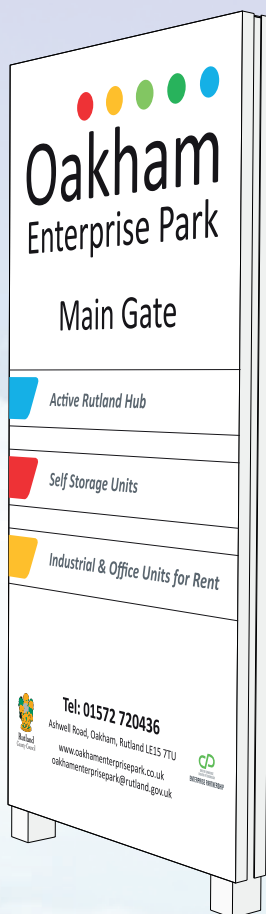

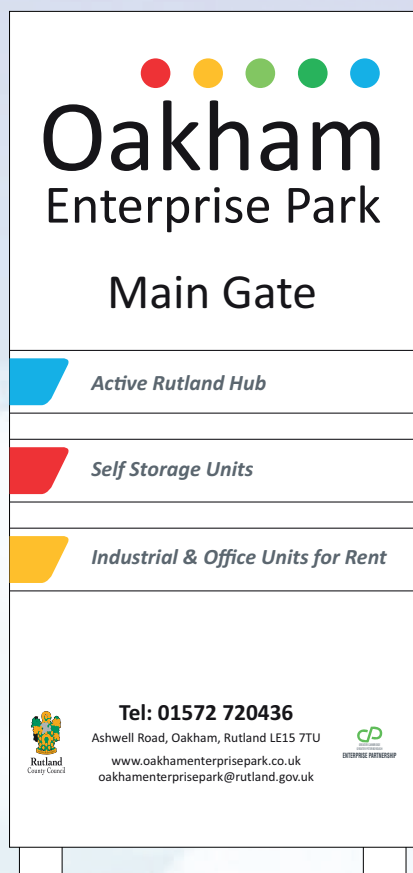

size	wall mounted	free standing	size	wall mounted	free standing
19"	£606.00	-	42"	£1529.00	-
22"	£720.00	-	46"	£1749.00	£3600.00
32"	£1115.00	-	55"	£2679.00	£4649.00

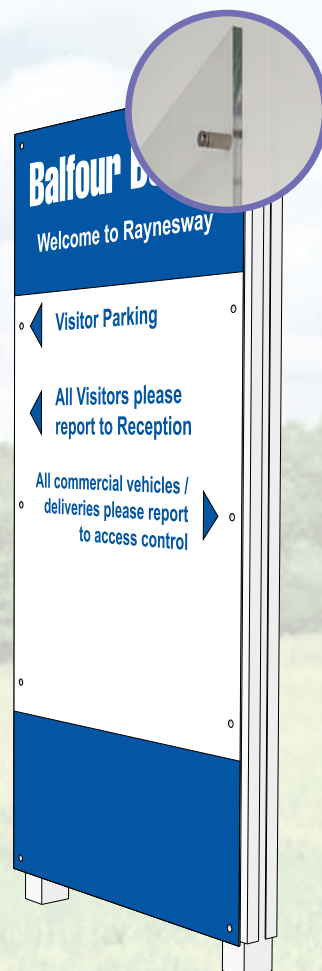

## OPUS Monolith

The OPUS range of external monoliths shown on this page are manufactured in two standard sizes and two different designs. The slimline design is ideally used as destination signs in wayfinding schemes or equally as building identification signage.

Bespoke monoliths can be manufactured to your requirements, call our sales team for advice.

**OPUS1**  
800 x 1600mm  
£925.00  
**OPUS2**  
1200 x 2400mm  
£1190.00

**OPUS3**  
800 x 1600mm  
£1156.00  
**OPUS4**  
1200 x 2400mm  
£1487.00

We have been producing high quality extruded aluminium sign systems for over 20 years. Offering a wide range of internal directory systems and an extensive range of external post and panel profiles, we have continued to demonstrate our commitment to innovative product design, blending appearance with functionality and for a range of signage products developed to suit every location and budget.

**Borders General Hospital**  
External Way Finding Post & Panel
