Each channel requires a different set of skills. The nature of the posts on LinkedIn is more professional and aims to reach more people as it's where we have our mass following. **In the last year alone, our LinkedIn following has grown by 85.2%.** The sky is the limit!

To show that we have a fun side, we like to use TikTok as it's a channel that's on the rise. We post entertaining and humorous videos to show a different side of our company's personality. **We gained over 13,000 views in our first year of consistently posting.**
